

In an excerpt from Erin Deckers deposition when being question about one of her many complaints based on her information and beliefs – not facts -she asserts that I “was either reimbursed in cash so there was no evidence of the transaction or an intermediary accepted cash and distributed it to Clark”

For the record I have never accepted money for giving a candidate a voters list.

16 A No, nothing wrong.

17 Q And then the next sentence, "Monica Yuhas

18 either reimbursed Clark in cash so there was

19 no evidence of the transaction or an

20 intermediary accepted the cash and distributed

21 it to Clark." Do you see that?

22 A Yes.

The most amazing part of this whole exchange is when I put in a public records request in for receipts for her meals while privately visiting the Menomonee Tribe in Keshena she had no receipts and wants us to believe she used cash (See Email Response) . Apparently, she used her credit card for gas but not for food and won't charge the County for her expenses for a 400-mile round trip but gets paid mileage every time she drives to the county for a meeting.

The last Casino proposal, a local politician and several prominent members of our community were convicted of crimes related to the Casino. While I am not alleging any crimes were committed during this trip it certainly has a bad look and puts the County at risk.
